

NADIRA KHUMAIRA PUTRI

DATA ANALYST | BUSINESS INTELLIGENCE (BI) SPECIALIST | APPLIED AI & ANALYTICS ENGINEER

08578-2096-589 | nadirakp06@gmail.com | linkedin.com/in/nadira-khumaira/ | Jakarta

PROFESSIONAL SUMMARY

Undergraduate Information Systems student (Data Science concentration) at President University (Current GPA: 3.78/4.00). Demonstrates strong practical expertise in end-to-end data analytics, relational data warehousing, predictive machine learning modeling, and executive Business Intelligence (BI) reporting. Experienced as a Data Analyst Intern at Codveda Technologies (Maret–Apr 2026) executing data wrangling in Python, customer churn modeling (Random Forest AUC = 0.90), NLP sentiment analytics, and translating statistical findings into actionable business roadmaps; along with hands-on portfolio analytics governing 10,000+ transaction rows across BigQuery, PostgreSQL, Power BI, Tableau, and Looker Studio. Holds professional credentials in AWS Fundamentals of ML & AI (2025), Dicoding AI Fundamentals (2025–2028), KarirNex Data Analyst Bootcamp (Expert Rating, 2026), IBM SkillsBuild GenAI & AI Ethics (2026), and BNSP Junior Web Developer (2025–2028). Highly proficient in Advanced SQL (CTEs, Window Functions), Python, BigQuery, Power BI, Tableau, Looker Studio, and LLM integrations (Llama 3 via Groq). Ready to drive data-driven decision-making and business intelligence optimization.

EDUCATION

PRESIDENT UNIVERSITY – West Java, Indonesia

Sept 2024 – Dec 2027

Bachelor of Science in Information Systems (Data Science Concentration) | GPA: 3.78 / 4.00

<https://nadira-portfolio-mu.vercel.app/>

CORE COMPETENCIES

- Business Intelligence & Executive Visualizations: Interactive dashboard architecture, relational data modeling, YoY trend analysis, and KPI tracking in Power BI, Tableau, Google Looker Studio, and Advanced Excel.
- Data Warehousing & Advanced SQL Analytics: Complex query development (CTEs, Window Functions, Subqueries, Multi-table Joins), data pipeline transformation in Google BigQuery, PostgreSQL, and MySQL.
- EDA & Predictive Machine Learning: Data wrangling, exploratory data analysis, predictive classification (Linear Regression, Random Forest), model evaluation (AUC = 0.90), and customer behavior/churn analytics.
- Applied Generative AI & Automation: Integrating LLMs (Llama 3 via Groq API) for natural language querying and automated reporting, NLP sentiment analysis, and GCP cloud environments.

WORK EXPERIENCE

CODVEDA TECHNOLOGIES – Remote

Mar 2026 – Apr 2026

Data Analyst Intern

- Executed end-to-end data preprocessing and exploratory data analysis (EDA) using Python (Pandas, NumPy) to secure data integrity.
- Built predictive machine learning models (Linear Regression, Random Forest) for Customer Churn Prediction, achieving an $AUC = 0.90$.
- Implemented Natural Language Processing (NLP) techniques for Sentiment Analysis to extract consumer behavior insights.

ANALYTICS & BUSINESS INTELLIGENCE PROJECTS

Sales Performance Analysis Dashboard (Python, SQL, Tableau, Excel)

Aug 2026 – Aug 2026

- Cleaned and normalized 9,994 multi-table transactional records using Python/Pandas across Orders, Customers, Products, and Locations.
- Built an interactive Tableau dashboard tracking YoY sales KPIs, uncovering \$733K in total revenue (20.4% YoY increase) and \$93K in net profit (14.2% YoY increase).

Kitchen Equipment Sales Intelligence Dashboard (Google BigQuery, Looker Studio)

Jul 2026 – Jul 2026

- Executed end-to-end data transformation on 10,000+ transaction rows using BigQuery SQL and advanced Excel.
- Designed Looker Studio dashboards tracking logistics, refund percentages, and high-margin revenue categories.

- E-Commerce Customer Behavior Analysis (PostgreSQL, Power BI, Python)May 2026 – Jun 2026
- Evaluated 3,900 e-commerce transactions utilizing advanced SQL (CTEs, Window Functions) to answer 13 critical business questions.
 - Developed a Power BI dashboard modeling customer purchasing frequency, subscription impact, and seasonal spikes.
 - AI-Powered DVD Rental Analytics Web App (Python, Streamlit, Groq API)
 - Built an analytics web application integrating Llama 3 via Groq API for natural language SQL queries and automated chart rendering.

- Customer Churn Prediction Dashboard (Python, PostgreSQL, Django)Mar 2026 – Apr 2026
- Built an end-to-end customer analytics system using Django + PostgreSQL, integrating a Sakila-style relational database with a machine learning pipeline to predict customer value and churn risk from 599 customer transaction records.
 - Engineered an ETL pipeline (Python/pandas) that aggregates raw payment transactions into behavioral features, including total payment, payment frequency, and average spending, reducing manual data preparation for model training.

- AI-Powered DVD Rental Analytics Web App (Python, PostgreSQL, Streamlit, Groq)Mar 2026 – Apr 2026
- Built a web-based analytics dashboard integrated with an intelligent AI assistant using **Llama 3** via the **Groq API** for Natural Language data queries and automatic chart visualization.
 - Implemented **Random Forest** and **Transformer** predictive models to forecast quarterly business revenue.

ORGANIZATIONAL & COMMUNITY EXPERIENCE

- Novo Club (PT Paragon Technology and Innovation):** National Batch Student2026 – Present
- Google Developer Group (GDG):** Active Member2024 – Present

CERTIFICATIONS

- KarirNex: Certified Data Analyst Bootcamp - Expert Predicate2026
- IBM SkillsBuild: AI Ethics & Introduction to Generative AI2026
- AWS: Fundamentals of Machine Learning and AI Issued2025
- Dicoding Indonesia: Belajar Dasar AI (Credential ID: N9ZO29MERPG5)2025 – 2028
- BNSP: Certified Junior Web Developer2025 – 2028

SKILLS

- Technical Skills: Power BI, Tableau, Google Looker Studio, Google BigQuery, PostgreSQL, MySQL, Advanced SQL, Python (Pandas, NumPy, Scikit-learn), Advanced MS Excel, GenAI (Llama 3, Groq API), Google Cloud Platform (GCP), Git/GitHub, Figma.
- Soft Skills: Data-Driven Decision Making, Problem Solving, Analytical Thinking, Stakeholder Communication, Time Management, Business Acumen, Collaborative Teamwork.
- Languages: Indonesian (Native) & English (Professional Working Proficiency).
